👤 Profile

Dedicated Front-End Developer with 1 year of intensive coding practice and project-based learning. Proven ability to build responsive and user-friendly web applications from scratch using React.js and modern CSS frameworks. Actively coding every day to master clean code principles and UI/UX best practices. Seeking to bring my technical skills and passion for web development to a professional team.

📁 Professional Experience

- **Website Development:** Built full websites from scratch, including online stores (E-commerce) and news portals.
- **Full-Stack Capability:** Developed server-side logic and REST APIs using **Node.js** and **Express.js**, with **MongoDB** for efficient data storage and management.
- **Admin Panels:** Used **Strapi** and **Sanity** to create easy-to-use admin panels for clients to manage their content.
- **Faster Loading:** Used **TanStack Query** to make websites faster and more efficient when loading data.
- **Design-to-Code:** Focused on making websites look exactly like the design, ensuring they work perfectly on mobile and desktop.
- **Modern Tools:** Used **React**, **TypeScript**, and **Tailwind CSS** to write clean and organized code.
- **Server-Side Rendering:** Built high-performance, SEO-friendly web applications using **Next.js**, leveraging Server Components and optimized data fetching.

🧠 Skills

- **Languages & Core:** JavaScript (ES6+), TypeScript, HTML5, CSS3.
- **Frameworks & Libraries:** **Next.js**, React.js, Node.js, Express.js.
- **Database & Backend:** MongoDB, Mongoose, Firebase, Strapi.
- **Styling & UI:** Tailwind CSS, Bootstrap, Shadcn/ui.
- **Tools & Workflow:** Git, GitHub, Postman, Figma.

🎓 Education

Frontend Development, Code Academy	2025 – 2026
Software Engineering for Automated Systems and Computing, Western Caspian University College	2020 – 2024

🌐 Languages

Azerbaijani Native	Turkish Native / Bilingual
English Technical Elementary	Russian Beginner

📁 Projects

- <https://final-front-5a95.vercel.app/>, Kayak & Water Sports Platform (React & Strapi)
- **Tech Stack:** Developed using **React.js**, **TypeScript (TSX)**, and **Tailwind CSS** for a high-performance, responsive user interface.
 - **Dynamic Content:** Integrated **Strapi CMS** as a headless backend to manage equipment categories, pricing, and blog posts dynamically.
 - **UI/UX:** Focused on pixel-perfect design and smooth navigation to enhance the user experience for water sports enthusiasts.
 - **Deployment:** Hosted on **Vercel** with a focus on fast rendering and optimized asset loading.
- <https://menim-saytim-n1cr.vercel.app/>, Full-Stack Community/Gaming Portal (Next.js, Node.js, MongoDB)
- **Architecture:** Built a modern, scalable web application using **Next.js**, **Node.js**, and **Express.js**.
 - **Database:** Designed and managed a NoSQL database using **MongoDB** and **Mongoose** to handle dynamic data flows and user interactions.
 - **Performance:** Leveraged **Server-Side Rendering (SSR)** and **Server Components** in Next.js for superior SEO and lightning-fast page transitions.
 - **Full-Stack Workflow:** Successfully managed the end-to-end development cycle from database schema design to frontend deployment on **Vercel**.
